RH 36 HardTop

Dear Rockharbour Friends and Ocean Lovers;

The first Rockharbour 36 has met the cool waters of the Ocean in 2013 upon the request of ocean lovers who appreciate the performance of Rockharbour 42 model. Using 3D modelling and computer simulations, our team aimed to build a seaworthy boat; a real lobster, which is also comfortable with wisely designed interior spaces and spacious decks. Every detail was carefully and elegantly planned so that you only relax and enjoy the spectacular ocean view and the gentle breeze.

As a result, a "Beauty" came out and attracted everyone's attention which was beyond our expectations.

Our RH36 model, which is built with Vacuum Infusion method and vinylester resin by highly skilled and experienced Rockharbour Marine team, is equipped with the leading brand equipment of the yacht industry.

Wide side walkways, spacious area and sunbathing cushions on the forehead, comfortable stern deck seating area will embrace you when you miss the sun and the stars. A swimming platform with the necessary equipment for taking a shower and a large saloon seating area under the hardtop, all of these details are unexpected from this size class boat.

RH 36 model, which has single cabin and double cabin options, offers you many features and our "semi-custom" production philosophy, as always, with the opportunity to arrange the design according to your needs.

Rockharbour 36 can accommodate you and your friends comfortably on your daily or weekend trips.

We wish you unforgettable moments in our Rockharbour yachts in the coolness of the unique deep blue beauty.

Rockharbour Team

Interiors and Captain Helm;

Under the hardtop, the sitting areas in the spacious living room stand out with panoramic view. The multi-purpose cabinet, which can be fitted with an optional TV unit and a small service table, has a Fusion music system with two external speakers connected as standard. If desired, additional refrigerators can be placed in this cabinet.

Captain's Helm; perfect view ability, ergonomic seat, all equipment and emergency panel controls designed to provide maximum ease of use.

Front deck

The sunbathing cushion on the front deck is wide and comfortable enough to enjoy being in the fresh air and feeling the breeze under the sun.

Stern Deck

The large seating area which can accommodate up to 8 guests, gives insatiable pleasure of the Ocean with your friends comfortably. The optional center table facilitates the service while hosting your guests.

Master cabin

The master cabin is large enough to be rarely seen in these size boats. Totally handcrafted furniture bed and full size drawers under, a tall cabinet on both sides, 4 openable portholes, and a round sunroof escape hatch with a ceiling height above the standards creates a spacious interior volume, it offers real comfort for those who intend to spend the night.

Galley

Large and spacious kitchen section facilitates with the microwave oven to the 100 lt deep freeze refrigerator, the lower and upper cabinets with LED lighting, the sink placed on the Corian countertop and the 2-eyed Ceran cooker. This fully equipped kitchen is designed to meet all of your needs with maximum comfort.

Head

While the full height shower area in the head, which is located independently in the WC section, provides the opportunity to sit comfortably with the movable cover on the fully automatic electric WC, the Corian countertop recessed sink on the Hilton style bathroom cabinet offers comfortable use with its faucet and chrome accessories.

RH 36 which is equipped with double Volvo Penta 225 Hp Stern Drive, distinguishes itself from its competitors with its superior manoeuvrability, speed up to 30 knots and remarkable savings in fuel consumption.
